WORK EXPERIENCE

Web Developer

August 2022-June 2023

KMC Savills Inc. – Bonifacio Global City, Philippines

Responsible for managing multiple large sites using Umbraco CMS, creating landing pages, and building new sites for clients using different technologies. Provide technical recommendations to improve the existing architecture, maintain the server for websites, and ensure timely delivery of development projects. Also work on improving site performance, assist in SEO practices, and provide web analytics reports to the team.

Web Developer

March 2022-July 2022

Breddas Inc. – Bonifacio Global City, Philippines

Works closely with the Lead Web Developer to create a new platform for the company and translates these requirements to the operational team. I participate in program design. Responsible for both front-end and back-end development of the platform, ensuring it is user-friendly and runs smoothly. I utilize a variety of markup languages to write web pages and ensure that user input is validated before submitting it to the back end.
